DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 1-4 and 13 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The elected species (embodiments of Figures 1-3) does not disclose a positioning member that separates the spigot wedge ring and socket wedge ring or that the socket wedge ring has an opposed frusto-conical surface in contact with the positioning member.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-4 and 13 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

This application is in condition for allowance except for the following formal matters:

The non-elected claims 1-4 and 13-69 have not been canceled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
